ABSTRACT

This report provides educators and the general public with statistics about education in Connecticut's 165 public school districts during 1983-84. Statistical summaries for each town describe community characteristics, superintendent's office information, enrollment of pupils overall and by major sub-group, proficiency test results, program offerings, staffing characteristics, funding, and expenditures. The report is divided into six sections: (1) Connecticut State totals; (2) Towns that operate school districts (listed alphabetically); (3) Towns that do not operate school districts (listed alphabetically); (4) Regional school districts (listed numerically); (5) Endowed and incorporated academies and E.O. Smith School (operated by the University of Connecticut's School of Education); and (6) Definitions and sources. (KH)

FOREWORD

Town and School District Profiles, 1983-84, is the sixth edition in the annual series. It presents the essence of Connecticut's education database in a format useful for comparisons and analyses. In another document, ***Meeting the Challenge,*** the State Department of Education reports on the overall condition of education in Connecticut and related policy initiatives.

Educators and the general public alike will find a variety of useful data about education in Connecticut's 165 public school districts. The statistical summaries for each town present community characteristics, superintendent's office information, enrollment of pupils overall and by major sub-groups, proficiency test results, program offerings, staffing characteristics, funding and expenditures.

Past demand for this annual publication indicates a wide interest in facts about our educational programs. The State Department of Education is committed to supplying accurate and timely information about our public education system to all interested users. This information should help all of us in our search for new ways to improve the education of the pupils in our schools.

Food Services and Student Activities	The sum of district expenditures for food services and student activities. This sum represents net food services expenditures plus net student activities expenditures (i.e., total food service and student activities expenditures less sales revenues). Where no losses are incurred in food services operations, net food services expenditures may be reported as zero.

Operation and Maintenance of Plant	The sum of district expenditures for the operation and maintenance of school buildings and property. The per pupil amount is based on the total number of pupils in the district.
Tuition Payments to Other Districts	The sum of district expenditures for tuition for resident students educated outside the school district. The per pupil amount is based on the number of resident students for whom tuition is paid.
Land, Buildings and Debt Services	The sum of district expenditures for the acquisition of land and buildings and payments of the principal and interest on school bonds. The per pupil amount is based on the total number of students in the district.
Net Current Local Education Expenditures	The sum of education expenditures from local taxes excluding any expenditures for adult education programs, health and welfare services for nonpublic school students, and capital expenditures. This is the measure of local taxes for elementary and secondary education programs used to calculate Educational Equalization Aid grants. The per pupil amount is based on the district's average daily membership (ADM). No amount is shown for high school regional school districts. Local taxes used to support high school districts are included with local taxes for elementary school districts in the member towns. For K-12 regional school districts, the amount shown is the sum of local taxes from all member towns.
Percent Above or Below Median	The per pupil amount compared to the state median per pupil amount for the expenditure category. The state median is shown in the Connecticut section preceding the individual town profiles. No comparison to a state median is shown for tuition payments.
